Update on Capital Needs for Redding Schools and Presentation to Board of Finance: Committee members reported they had made repeated visits to the school facilities evaluating the scope of the work required for the identified projects. Bids and estimates previously received by the schools are being reviewed to check specifications and cost accuracy. In preparation for the March 22 Board of Finance meeting, several revisions were made to the Capital Needs Assessment, and members worked on a template for the presentation. The Committee will investigate the availability of Federal and State grant monies for the proposed improvements.

Update on Facilities Management Software System: After a brief discussion concerning the BIM model and associated computer software, the majority of the committee concluded that the expense for implementing the system should be funded from future School Operating Budgets.

Adjournment: 9:34p.m.

Respectfully submitted,

Mike D'Agostino, Facilities Planning Committee Secretary
