

## **Administration**

### **Policy and Regulation Systems**

#### **Policies**

Policies are statements of intent adopted by the Board of Education. They serve as guides to the administration in the development and implementation of regulations for operating the district. The Superintendent is an integral part of this policy-making process recommending to the Board areas requiring policy adoption or change.

#### **Regulations**

Consistent with policy, the Superintendent shall specify required staff actions, and design the administrative arrangements under which the schools are to be operated. The Superintendent is responsible for development and implementation of district regulations. Regulations should be complete, consistent with adopted Board policy, and capable of reasonable implementation. When required by federal or state law, regulations will be included in the policy manual and subject to Board consideration.

#### **Bylaws**

Bylaws are the rules governing internal operations of the Board of Education. When need for a new bylaw, or modification of an existing bylaw is recognized, the Board will consider an effective new or modified bylaw for adoption.
