

Non-Instructional Operations

Transportation: Drivers

The Superintendent or a designee will approve all drivers annually and/or upon initial employment following certification by the contractor that each driver is in all respects qualified to drive a student transportation vehicle or activity vehicle. Only drivers approved in advance in writing may operate vehicles for the District. The Student Transportation Services Contractor shall provide notice to the Superintendent in writing at least 24 hours prior to effecting any change of driver on any route.

Each driver shall have an annual physical examination, including a TB test, shall hold all appropriate licenses, and shall have a State Police clearance before being deemed eligible to transport students. Drivers shall also be subject to an alcohol and drug testing program. Documentation in support of compliance shall be filed with the Superintendent or his/her designee prior to the first day of school, or within 30 days of employment.

An operator's license bearing one or more endorsements ("V", "A" or "F" endorsement) must be held by any person operating an "activity vehicle".

A motor vehicle operator's license endorsement is not required to be held by a parent or other volunteer who transports one or more students in connection with a school-sponsored event or activity. **Incidental, unplanned, and/or emergency** operation of a motor vehicle by a paid teacher, coach, or other school employee or agent to transport students does not require the operator to hold an operator's license endorsement. (*The vehicle does not meet the statutory definition of an "activity vehicle".*) An operator's license bearing one or more appropriate endorsements must be held by any person who does not fall under the definition of "carrier" but who transports students in a service bus.

Any school bus driver or STV driver who tests positive for drugs shall be prohibited from employment as a driver for a minimum of two years.

All drivers, prior to employment, shall be subject to state and national criminal history checks. The school district and/or the school district's contractor shall review, at least twice monthly, information provided by the DMV Commissioner regarding the withdrawal, suspension or revocation of the licenses of drivers.

The Superintendent or designee will require each regular driver to participate annually in a locally-implemented first aid seminar. Whenever practical, substitute bus drivers will also be required to participate in first aid training.

If necessary, the Superintendent or designee may remove a driver from their assignment, by notification to the Student Transportation Services Contractor, that a particular driver's eligibility has been revoked pursuant to this policy.

Non-Instructional Operations

Transportation: Drivers (continued)

Definitions:

Student Transportation Vehicle: Any motor vehicle, other than a registered school bus, used by a carrier for the transportation of students to or from school, school programs or school-sponsored events.

Activity Vehicle: A student transportation vehicle that is used to transport students in connection with school-sponsored events and activities, but is not used to transport students to and from school.

Carrier: Any local or regional school district, any educational institution providing elementary or secondary education, or any person, firm, or corporation under contract to such district or institution engaged in the business of transporting primarily persons under the age of twenty-one for compensation.
