

Community Relations

Advertising and Promotion

The Board of Education recognizes that public schools should maintain careful controls on the way in which students are exposed to materials and announcements, other than those directly related to school sponsored programs and activities. Although school districts are public institutions, fully supported by public taxes, the Board has a clear responsibility to protect students and their families from exploitation by private interests including, but not limited to, commercial, cultural, economic, environmental, organizational and political exploitation.

There are situations, however, when it is educationally sound to make students more aware of the social environment and their roles as members of society. In such situations, judicious dissemination of information to students about community activities is warranted. Each situation requires individual consideration and the judgment of responsible school officials must be the decisive factor. Caution is to be exercised to prevent exploitation of the system and its students, who represent a large, and captive audience.

It is the policy of this Board that the students, the staff, or the facilities of the school district shall not be used to advertise or promote commercial, organizational, cultural, or other non-school interests except that the district may:

1. Utilize instructional aids furnished by private sources when the advertising content is reasonable in the judgment of the Superintendent or designee.
2. Cooperate, through announcements and distribution of program material, with a town agency or non-profit community organizations that benefit students and their families, when such cooperation will not interfere with the school program.
3. Permit participation on a student option basis in essay, art, science, and similar contests sponsored by outside interests when such activities parallel the curriculum and contribute to the educational program.
4. Accept limited advertising on extracurricular activity schedules and programs at the discretion of the principal of the school involved.
5. Permit other exceptions when, in the judgment of the superintendent, students of the district will benefit. The Superintendent may, at his or her option, refer specific cases to the Board for decision.

All such displays shall be limited to the area being utilized and only for the duration of the activity. All such displays shall be removed prior to the start of school in fall.
7. Allow advertising for the purchase of photographic services in connection with the class pictures and the services and goods deemed necessary by the principal for the normal student activities of a school.
