Surveys of Students (Student Privacy)

Surveys can be a valuable resource for schools and communities in determining student needs for educational services. When a survey is used, every effort should be made to ask questions in a neutral manner to ensure the accuracy of the survey.

Administrators, teacher, other staff members and the Board of Education may use surveys for many purposes. Such purposes may include, but are not limited to, the need for student services, the determination of prevailing views pertaining to proposed policies and/or practices, or the determination of student knowledge and/or attitudes related, to a specific subject or units. These are examples of surveys and not intended to be an all-inclusive listing. Administrative approval is required for surveys. Responses will not be used in any identifying manner.

No student may, without parental consent, take part in a survey, analysis, or evaluation that reveals information covering:

1. political affiliations or beliefs of the student or the student's parent;
2. Mental or psychological problems of the student or the student's family;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating and demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program); or
8. religious practices affiliations, or beliefs of the student or the student's parent.

Surveys conducted for other agencies, organizations or individuals must have the approval of the building administration and the Superintendent of Schools.

Parents/guardians shall have the right to inspect, upon their request, a survey created by a third party before the survey is administered or distributed by a school to a student. Such requests shall be made in writing with a response to be at least two weeks in advance of any survey to be given.
