

Students

Student Personnel

The public schools are focused on the learner, the student. The student's educational development toward the school's goals is the central concern of the Board of Education's policies and the district's administrative regulations.

Each student will be given equal opportunity. Children do, however, vary widely in capacities, interests, social and economic background. Therefore, no two can be treated exactly alike if the fullest development of each child is to be achieved.

The Board will attempt to erase any limitations of facilities and means that stand in the way of our schools' availability to all who wish to learn.

Discrimination of any kind among students attending our schools is prohibited.

(cf. 4125 - Non-Discrimination)
