Smoking and the Use of Tobacco

The Board of Education recognizes the health consequences of smoking and the use of tobacco products and the reports from various medical sources identifying health hazards for smokers and non-smokers. It is the desire of the Board to provide a safe and healthy environment for students and adults who use school facilities. This environment will favor the health interests of the non-smoking person.

Smoking or the use of other tobacco products by students, staff or visitors is prohibited at all times on the campus of any school in the Easton district.

Policy adopted: February 11,1997
Policy revised: April 21, 1998
