

Non-Instructional Operations

Routes and Services: Transportation

The Superintendent will direct the study of bus routes in order to provide the safest and shortest routes which will get all students to school in the most economical way. Routes will be arranged in such a way as to equalize, as nearly as possible, the length of routes and bus loads and to provide for the full use of buses.

Three (3) copies of each official route will be made prior to the opening of school. One copy will be sent to the driver and one to the school principal. The third copy will be kept on file in the Superintendent's office. Changes in bus routes and time schedules will take place only upon approval provided through the office of the Superintendent of Schools.
