

Non-Instructional Operations

Transportation: Student Bus Assignments

All school buses have a definite approved seating and standing capacity which cannot be exceeded legally. Since these buses are scheduled to make best use of the stated capacity, it will be the policy of this school district that all students who are transported must ride to and from school only on buses to which they are assigned. Exceptions will be made only when necessary and when seating is available.

Bus drivers will be instructed to refuse transportation to any student who is not a regular passenger unless the student presents written and signed approval from the principal or designee.

In certain cases, when the parent requests a permanent assignment to two different buses for arriving at and leaving school, such requests will be honored to the extent that space is available on the second, afternoon run on a permanent basis and only after students riding both ways on the same buses have all been accommodated. In no case, however, will a student be transported from school to an area outside that which is usually served by the school which the student attends.
